# SAFE SHORTS – W O R L D NOVELTY

## Why SAFE SHORTS?

There is no 100 % security against sexual assault and rape while you enjoy the full freedom of action. **SAFE SHORTS** is one step in the right direction.

You may ask for shorts, that are very light, flexible and comfortable, but it shouldn't be stripped off by others.

These shorts should protect you against anybody who may grab into your pubic area. This is what **SAFE SHORTS** are designed for. It consists of a flexible layer of patented material, which is securely attached all around your pubic area. This layer is among others flexible, hygienic and breathing active.

To protect you effectively, a very loud alarm should be activated automatically, if someone tears at your clothes.

**SAFE SHORTS – for everybody!**

SAFE  
SHORTS

## How does it work?

A combination of light, flexible, but tear- and cut resistant materials is the secret of **SAFE SHORTS** and gives you secureness with a high wearing comfort.

Tear- and cut resistant high-tech cords – well known in the production of bulletproof vests – designed in an ergonomically way protect you from anybody trying to strip off the design.

If you pull on your **SAFE SHORTS**, you have to fix the high-tech cords until your **SAFE SHORTS** align with body. The high-tech cords will be fixed with the closing mechanism. You lock. Now, your secureness is perfect against strip off.

Still, your **SAFE SHORTS** follow every movement because it contains a protector made of flexible, tear- and cut resistant material, the latter protects you from grabbing fingers and a forceful opening of your shorts.

Please wash your **SAFE SHORTS** at 30 degr. Cels. an appropriate washing additive.

The closing mechanism enables the connection with a siren force alarm at 130 db.

When you tear at the **SAFE SHORTS** the alarm will automatically be released. It is although possible to activate the sound yourself by pulling at the cord.

This unique solution in a combination of material and functionality offers an optimum in safety during sport and leisure time.
